

subtle - Bug #173

gray canvas in emacs with resize true

01/09/2011 05:34 PM - Tobias Bruenner

Status:	Fixed	Start date:	01/09/2011
Priority:	High	Due date:	
Assignee:		% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Even though resize is globally enabled in subtle.rc emacs got gray canvas after starting it via console or shortcut from another view (not the view where emacs is in) or after opening a file with a filebrowser. The canvas disappears after reloading subtle. Starting emacs via shortcut or launcher in the 'emacs view' results in no gray canvas.
