broken shortcuts after closing opera

01/23/2011 10:22 PM - Tobias Bruenner

Status:	Fixed	Start date:	01/23/2011
Priority:	Urgent	Due date:	
Assignee:	Christoph Kappel	% Done:	100%

Target version:			
Description			
After closing opera via Ctrl-q all subtle related keyboard-shortcuts stop working. I have to switch to another view with the help of the mouse (and the panel) to get them working again. Closing other clients doesn't have this effect as far as I can judge.
