

subtle - Feature #284

Move screen/panel config to styles

03/18/2012 07:25 PM - Christoph Kappel

Status:	Added	Start date:	03/18/2012
Priority:	Urgent	Due date:	
Assignee:	Christoph Kappel	% Done:	0%
Category:	Feature	Estimated time:	0.00 hour
Target version:	Omicron		

Description

The only thing left, that influences the appearance of [subtle](#) that is not included in [styles](#) is the screen/panel config. That also means that the subtle style is obsolete, background will be removed in favor of e.g. xsetroot and the client margin will be the strut option.
